BARBOURVILLE, KY., FRIDAY, OCTOBER 10, 1919

ONE DOLLAR AND FIFTY CENTS A YEAR IN ADVANCE

## Make Kentucky "Safe" For Prohibition VOTE "YES" ON THE STATE WIDE AMENDMENT NOV. 4TH.

CONGRESSMAN J. M. ROBSON, who introduced bill granting additional compensation to all soldiers, sailors, marines and others who served in the armed forces of the United States in the war against Germany and Austria.

Washington, D. C., Oct. 3, 1919.  
Mr. Fred Burnam,  
My Dear Friend:

I enclose herewith a copy of the bill I have introduced for the benefit of the boys who were in the world war. I know this will be of interest to almost every family in your country, because almost every family had some member in this war. I am going to do everything in my power to see that this bill passes. I am heartily in favor of giving to the soldiers, sailors and marines who served in the war against Germany and Austria a bonus. The wages paid them were grossly inadequate. I am in favor of all the boys having bonus, but I feel that the boys who served overseas should be given more than those who did not go across. Canada has already given her soldiers a substantial bonus. Our government gave the people of Europe one hundred million dollars after the war. The contractors of this country got from two to five billion of excess profits in their dealings with the government. We loaned ten billion dollars to the allies and much of this will never be paid back and why should we beiggardly with the boys who were cut off from the opportunity of making money or advances in civil life.

Your friend,  
J. M. ROBSON.

Following is the bill introduced by Congressman Robson:

A bill granting additional compensation to all soldiers, sailors, marines, and others who served in the armed forces of the United States in the war against Germany and Austria.

Be it enacted by the Senate and

House of Representatives of the United States of America in Congress assembled, That every officer and enlisted man of the Army, Navy, Marine Corps, and every member of the Army Nurse Corps, including American Red Cross nurses who served in the forces of the United States in the war against Germany and Austria at any time on and between April 6, 1917, and November 11, 1918, and who has been honorably discharged from said service, or who may hereafter be honorably discharged therefrom, if he or she served overseas, he shall receive in addition to all other compensations and allowances heretofore allowed by law, the sum of \$10 for each month of such service overseas rendered before November 11, 1918, and \$30 per month for such additional time that he served overseas in the United States between April 6, 1917, and to the time of his or her honorable discharge, not later than October 1, 1919, and if he or she did not serve overseas, they shall receive \$30 per month for such time that he or she served between April 6, 1917, and October 1, 1919. In the computation of the length of service a fraction of a month shall be considered a full month.

If a person above described, who was in the service at any time on and between April 6, 1917, and November 11, 1918, who if living, would be entitled to the benefits of this act, shall have died prior to or on the date this act takes effect, and was honorably discharged, or was at the time of his or her death in good standing, or shall die, hereafter, before receiving such payment, after being honorably discharged or while in good standing, then the payment otherwise accruing to the deceased shall be paid to the surviving widow, child, or children, mother or dependent father of the deceased, in the order herein stated.

The benefits of this act will not accrue to any person for time spent while taking training in any student army, training camp, training school, nor any person who, though inducted into the service, did civilian work at civilian pay, nor to any person who was a conscientious objector and was permitted because of same to perform noncombatant duty, while in the service, nor to any person who was a deserter or dishonorably discharged.

Sec. 2. That all persons entitled to receive payment under this act, shall receive the same in lawful money of the United States, if such money is available for such purposes, and if there is not sufficient money in the Treasury to meet such payments, Secretary of the Treasury is hereby authorized and directed to issue to each of the persons entitled to receive said payment, United States Government bonds at par, such bonds to be known as Victory bonds. All of such bonds will be dated as of the date of the approval of this act by the President or upon the date it shall become a law without his signature if he should fail to approve same, and to bear in-

terest at 4 per centum per annum and to be nontaxable for any purpose and for all purposes. The said bonds for overseas service will be in denominations of \$40 and such multiples of \$40 as the case may require. And the said bonds for the other service shall be of denomination of \$30 and such multiples of \$30 as the occasion may require. Such bonds will be in such form and such condition of issue, conversion, redemption, maturities, and payment, in addition to the terms herein stated, as said Secretary may prescribe.

Sec. 3. That the Secretary of War and the Secretary of the Navy, respectively, shall make and adopt such rules and regulations as shall be necessary for carrying out and enforcing the provisions of this act.

### MORAL—DON'T BORROW.

A man who was too stingy to subscribe for his home paper sent his little boy to borrow the copy taken by a neighbor. In his haste the boy ran over a \$4 stand of bees and in ten minutes looked like a warty summer squash. His father ran to his assistance, and failing to notice the barbed wire fence, ran into that, cutting a hole in his anatomy and ruining a \$5 pair of trousers. The old cow took advantage of the gap in the fence and got into the corn field and killed herself eating green corn. Hearing a racket, the wife ran out, upset a four-gallon churn full of cream into a basket of little chickens, drowning the entire batch. In her haste she dropped a \$25 set of false teeth. The baby, having been left alone, crawled through the milk into the parlor, ruining a brand-new \$25 carpet. During the excitement the oldest daughter ran away with the hired man, the dog broke up eleven setting hens and the calves got out and chewed the tails of four fine shirts on the clothes line.—Sebree (Ky.) Banner.

### UNION COLLEGE NOTES

Dr. Gray visited the College Freshman English Class Saturday afternoon and gave them a talk on methods of becoming a good public speaker. The class learned that the first essential is to want to be a good speaker; the second is to have a real message that you want to give to others.

There is a movement on foot to organize the school into two literary societies. This will give each student a chance to do his best along lines of public performance.

The students are having good times at their bi-weekly socials in the parlor of Speed Hall. Last Saturday night was one of the jolliest ever.

The Serenading party that visited Speed Hall Monday night was greatly appreciated by the Hall dwellers. Judging from the music rendered and the quality of the singing, the choral classes this year should have the heaviest support of the young men.

The Junior Academy Class held their first meeting Saturday and the officers elected were Cheslie Franklin, President and Violet Humfleet Secretary and Treasurer.

Union College certainly had its place in the Kentucky conference this year. She had a day of the sessions for herself. The preachers of the conference were deeply impressed with the

work of the College. They have learned also that Union College is the greatest channel through which preachers may be had to fill the ranks of Methodism in Kentucky.

Several preacher students visited the conference and returned with good appointments for the coming year, namely S. P. Franklin to work in Chicago in connection with his studies in Garrett Biblical Institute W. G. Butler to Middlesboro, G. V. Sonders to Pineville, J. F. Ruggles to Williamsburg, A. H. Guyn to Kettle Island circuit, W. D. Archibald to Barbourville circuit, Wm. Marcum to London, Clarence Fisk to Wilton circuit. Two of the above, S. P. Franklin, and W. G. Butler were ordained deacons at the conference.

The Kentucky Conference is justly proud of the preacher students of Union College and very fittingly expressed itself in the way it received our beloved President Franklin, "May his tribe increase."

Union is now offering a complete course in domestic science. Miss Erma Beard of Portland, Ind., will carry on this new department of work very efficiently. All the boys are making arrangements to join the sewing class. This class is born of the necessities of the time. Nearly all the boys need a course along this line of work, as buttons must soon be sewed on, socks must be darned and elbows patched. Success to the young men's sewing class.

The Sophomore Class held its first regular business meeting last week and elected James Blair President, Anna Lee, Vice President, Clarence Fisk, Secretary. Mrs. Fisk and Mrs. Butler were made honorary members of the class. A social committee was appointed whose work will be to provide social good times for the class as often as practicable.

The Sophomores went for a picnic supper to Long Hill Tuesday afternoon. The bugs and snakes and pickles and weines disappeared like magic when the bonfire had reached the right stage of development.

Songs and class yells made Long Hill remember the old days

MR. FRED BURMAN.  
The above is a good likeness of Mr. Fred Burnam, editor of The Mountain Advocate, who Monday of last week underwent an operation at Norton Memorial Infirmary in Louisville.

It will be of interest to the many friends of Mr. Burnam to know that he is improving nicely and hopes to be back on the newspaper soon. Mrs. Burnam who is with her husband in a letter to her sister, Mrs. W. B. Minton, says that he is rapidly improving and hopes to be able to come home Saturday.

when the Indians roamed over this country. Everybody had such a good time that another picnic before the snow flies was talked of enthusiastically.

"Hurrah for the White Sox!" Score 24 to 19, favor of White Sox.

A wonderful game of indoor baseball on the outside was witnessed on the campus yesterday. Cicotte pitching for the White Sox of Union College had the better of the three Red or Bolshevik pitchers. Cicotte allowed only 38 hits, while the Reds got 27 hits. The White Sox won 24 to 19. The grandstand and bleachers (the college steps) were crowded with enthusiastic fans who were betting big odds on the Reds. This game is the climax of the season's work. But a fine team will be on hand to continue next year.

A Beautiful Woman.  
Do you know that a beautiful woman always has a good digestion? If your digestion is faulty, eat lightly of meats, and take an occasional dose of Chamberlain's Tablets to strengthen your digestion. Price 25 cents.

## What you will be tomorrow depends on what you save today.

This is a well known fact, and is admitted even by the greatest spendthrifts. But they don't seem to care.

It is the man who takes this fact seriously, who will have money tomorrow.

Never in the history of the world has it been so easy to start saving.

### \$1.00 Will Start The Account

You can start a savings account here today. It will begin to grow at once.

The government will help you. War Savings Stamps are safe and sure. We have them for sale.

NOTICE  
Notice is hereby given that an election will be held on the 4th day of November, 1919, in precinct No. 27, to determine whether it shall be lawful for cattle (hogs only) to run at large in said district.  
Given under my hand this 1st day of October, 1919.  
D. W. Slusher, Clerk.

## ADVANTAGES OF HAY CAPS ARE NUMEROUS

Give Protection From Rain and Reduce Loss of Leaves.

One of the strongest recommendations is the fact that growers east of Mississippi River are enthusiastic over their use.

Prepared by the United States Department of Agriculture.  
Hay caps—covers used in curing hay cocks—give protection from rain, reduce the loss of leaves, improve the color and increase the feeding value of the hay. One of the strongest recommendations for the use of hay caps is the fact that hay growers east of the Mississippi River who have used them are nearly always very enthusiastic regarding their advantages. The chief reason hay caps are not used more extensively, both North and South, is that most hay growers are of the opinion that they cost too much to warrant their use. In many sections

Curing Alfalfa in Cocks Under Caps.

the reduction in the value of hay through discoloration by sun and rain in a normal season amounts to as much as, or perhaps more than, the cost of enough hay caps to prevent this loss.

Hay caps are of two distinct types—those that are entirely impervious to both air and rain, and those that shed nearly all of the rain, and at the same time allow most of the moisture-laden air from the interior of the stack to pass through and be carried away. The caps are fastened on the hay cocks by weights attached to each corner of the cap and buried in the hay, or by use of strings tied to each corner of the cap and fastened together near the ground on opposite sides of the cock. Caps should be put in place as soon as the cock is made, but when there is no indication of rain this may be delayed until the following forenoon. When the caps are not in use they should be dried thoroughly and stored. If properly cared for they will last several seasons, and can be used on three or four cuttings each season.

At the New Jersey experiment station it was found that when some cocks of alfalfa were covered with cotton sheeting caps 45 inches square and exposed to a heavy rain lasting 24 hours, the hay was damp only two or three inches below the top. The cocks that were not covered received a thorough wetting and the hay was more or less bleached, the stems brittle and the loss of leaves heavy.

Hay caps are especially valuable in curing alfalfa and clover hay which do not dry out as readily as the grasses. Alfalfa must be handled carefully to avoid loss of leaves which constitute from 40 to 60 per cent of its weight. Farmers making a specialty of producing choice hay for market, or feeders, such as dairymen, desiring good palatable hay free from dust, will find that under certain conditions it will pay well to cure hay in cocks, under hay caps, when ordinary methods have been found to be unsatisfactory.

## HOW TO HANDLE SHEEP

To lead a sheep, stand on the left side, place the left hand under the lower jaw and the right hand on the dock or tail. Press on the dock and the animal will move; the left hand is used to guide it. Dragging sheep is hard on both man and sheep.

To carry a sheep, stand to the rear and on the right side; place the right hand just back of the right front leg and underneath the brisket. Gently raise the front end of the sheep from the ground. Grasp the left hind leg at the hock, using the left hand, and lift the sheep. Struggling will be prevented in this way.

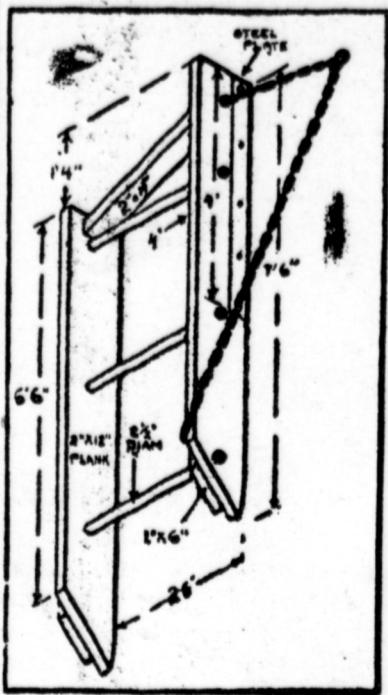

## DRAGGING ROADS IN SPRING

By Taking Advantage of Proper Moment Many of Ruts and Bumps Can Be Smoothed Out.

Most earth and gravel roads are in bad shape during the entire winter, largely because of the heavy fall hauling of harvested crops, and the rush of necessary farm work, which takes precedence over any kind of road work. The cold weather strikes them in this condition and makes each rut and bump almost as solid as rock, and in the spring these break down into mud.

Traveling over these ruts is a very racking, uncomfortable, and sometimes painful, operation. The rough jolts require a reduction in speed, causing an added strain on all classes of hauling

Plan of Plank Road Drag.

equipment, and frequently force the automobile owner to abandon the use of his car for the entire spring rather than risk a breakdown.

Most of the unpleasantness and difficulty may be remedied in many localities even in the worst weather, for there are times when the worst cut-up surface is in fairly good condition for dragging. By taking advantage of the proper moment, the ruts and bumps can be smoothed out and the next freeze will result in a smooth hard-surfaced pile that can be favorably compared to a concrete highway.

Owing to the fact that the road surface will be rather wet and sticky when dragged, greater care must be exercised in handling the drag. If the blades of the drag are set vertically, there will be a tendency to scrape up too much earth, or, in the language of the road man, "Ball up in front." Also, if the hitch to the team is set too near the center, the angle of the drag with the road will be too nearly a right angle, or straight across, to shed or crown the wet earth.

Dragging under these conditions should be more an "ironing out the wrinkles" process; hence the blades of the drag should be given a forward or flatter inclination than when working a dry road. The hitch should be so arranged that the angle of the drag is more nearly parallel to the road than ordinary, thus causing the earth to shed better and prevent trouble. For extremely bad conditions, the use of the road machine ahead of the drag will be found effective. In all cases, the road should be freed of all stumps, snags, and bowdiers, as these seriously retard good dragging.

A little practice will enable the operator to do a fairly creditable job, and after a subsequent freeze the road will present a smoother and much more comfortable surface. Then, when the spring rains come, the road will quickly shed the water that formerly collected in the deep ruts, and be dry and hard long before similar roads not dragged.

The present difficulties encountered in getting large amounts of crushed stone for road repairs necessitates the greatest care in maintaining all road surfaces in the best possible way without the use of additional materials.

## A Hoe and a Sponge.

A thick cultivated soil mulch is one of the best possible ways of saving moisture for growing crops. He that most frequently tills his soil, especially in times of drought, reaps, other things being equal, more abundant harvest than if tillage were neglected.

## Character of Community.

Roads index the character of any community. They determine its importance. They either limit its advance or aid it. If it isn't worth a good road, it isn't worth living in and land isn't worth what it sells for.

## Corn in Laying Ration.

Poultrymen who have it will find it advantageous to use a larger proportion of corn in their poultry rations than has generally been recommended.

## NOVEL SILKS IN SKIRTS

## The Square Deal is Born and Bred Into Fisk Tires

Back of Fisk Tires there's a concern whose one ideal is:

"To be the Best Concern in the World to Work for and the Squarest Concern in Existence to do Business with."

It is that backing—that spirit of doing the square thing—that puts into Fisk Tires the extra miles and the complete satisfaction in using them.

ORDINANCE apportioning the cost of the improvement of Knox Street, among the owners of property abutting thereon, according to the front feet of the respective lots abutting said street, and levying a local tax hereon to pay for the same.

The Board of Council of the City of Barbourville, Kentucky, do ordain as follows:

Sec. 1. That the cost and improvement of Knox Street, in the City of Barbourville, Kentucky, under the ordinance authorizing and directing said improvement to be paid, approved March 18th, 1919, and the same is hereby apportioned, in accordance with the estimate prepared and furnished by the City Engineer, among the owners of the property and against the property abutting on said street on both sides thereof, according to the number of abutting feet owned by such property owners and according to the number of abutting feet of said property, respectively, as follows:

Abutting Owners	Abutting Feet	Total Cost
National Bank of John A. Black	24.7	\$89.41
Hotel Jones	52.5	190.00
J. R. Jones	48.5	175.54
First National Bank	22.5	81.43

W. S. Hudson	102.	324.91
A. J. Mitchell	106	354.32
J. A. Owens	122.8	391.15

And of said total sum the City of Barbourville shall pay from its general fund into the street improvement fund for said street the sum of Seven hundred ninety four and 3-100 (\$794.03) dollars representing the cost of the improvement of the intersection with other streets intersecting Knox street, or which run into but do not cross Knox street.

Sec. 2. That there be and hereby is assessed and levied a local tax on and against the property abutting said improvement and said street, of the total sum of Ten thousand four hundred ninety and 22-100 (\$10,490.22) dollars for the purpose of paying and for paying the cost of said improvement, to be paid by the owners of the property abutting said street and improvement, at the rate per front or abutting foot, as follows:

On the property abutting said street between Court House square and Depot street, . . . . . \$3.67

On the property abutting said

street between Depot street and Allison avenue, . . . . . 3.185

And there is hereby assessed and levied against the respective parcels of land abutting said street and improvement, the sums aforesaid apportioned to said lots or parcels of land as the proportionate cost of such improvement, at the rates per front or abutting foot aforesaid, and which sums and local taxes so levied and assessed, are as follows:

Against the lot of:

property owner who desires to exercise such privilege of payment in installments shall, before the expiration of thirty days, enter into an agreement in writing with the City of Barbourville that, in consideration of such privilege, he will make no objection to any illegality or irregularity with regard to the taxes against his property, and that he will pay the same in the manner herein provided with specified interest.

In cases where such agreements have not been filed within the time limited above, the entire tax shall be payable in cash without interest before the expiration of said thirty days. Any such tax not paid within said thirty days shall bear interest at the rate of six per cent per annum from the date of the publication of this Ordinance.

In case any one or more of said property owners shall elect to pay said tax in ten equal annual installments, the same shall be payable as follows: One tenth of said tax, with interest at the rate of six per cent per annum on the entire tax at the time fixed by law for the payment of general city taxes for the year 1919, and annually thereafter one tenth of the entire tax. At the end of each six months from the time the first installment of tax becomes due, interest shall be due and payable for six months on all unpaid installments of said tax: Provided, however, any person may, at any interest paying period next after the fifth annual installment of his tax becomes due, pay the entire assessment of tax against his property with accrued interest.

Passed October 6, 1919.

Approved October 7, 1919.

Thos. D. Tinsley, Mayor.

Attest: John Parker, City Clerk.

MADE BY SCOTT & BOWNE  
MAKERS OF SCOTT'S EMULSION

Henry C. Black, of Johnson City, Tenn., was here last week visiting his parents Mr and Mrs John A. Black.

Mrs. Hugh M. Oldfield left Tuesday night for Princeton to be with her husband, Prof. Oldfield who is doing organization work there.

The Misses Campbell of the teaching force of our local school entertained several friends to a sumptuous dinner Sunday at their home at Grays.

Mrs. Louis W. Benninghoff left Friday for her home in Mineral Wells, Texas, after a summer's visit to her parents, Mr. and Mrs. W. Baker.

Rev. Dr. Minton was in Corbin last Sabbath. Next Sabbath Oct. 12, he expects to be in the Presbyterian pulpit of Barbourville morning and evening.

Mrs. Louis W. Benninghoff, of Mineral Wells, Texas, entertained a party of friends at the Star Theater Wednesday evening in honor of Miss Gertrude Black.

Mrs. James D. Black and Miss Gertrude Black of Frankfort, are visiting Mrs. H. H. Owens and family. Several entertainments are planned to be given in their honor.

The North Concord Association of the Baptist church met Oct. 2, 1919, with Ebenezer church on Greasy creek, Bell county. The Barbourville Baptist church was represented by B. E. Baker, Rev. R. L. Creel, J. H. Blackburn and J. W. Hughes. Great enthusiasm exists for the Baptist \$75,000,000 campaign, the Association agreeing to go even beyond its quota. The Association will meet next year with the Swan Pond Baptist church.

The Presbyterian Triangle met with Mrs. Minnie Riddell last Friday and elected a new Board of officers. Mrs. Nesbit, President; Mrs. Burnside, Vice President; Mrs. R. B. Minton, Secretary; Mrs. Condon, Treasurer; Mrs. W. B. Minton, Secretary of Literature; Mrs. Kate Ballard Chaplain. The next meeting will be Friday October 17, with Mrs. Burnside.

Rev. John Baxter a Presbyterian Minister from Loveland, Col., was a visitor at Union College and the home of Dr. and Mrs. Minton on Friday and Saturday of last week. Saturday morning he gave a splendid address at College Chapel on the subject, "Sent to the bench." There are certainly other ways of being sent to the bench besides through base ball failures.

FOR SALE — The Nicholson property on Pine Street. 10 room house modernly equipped, newly painted, new roof, newly papered. Lot about 85 ft. front by 430 ft. Price \$5,500. Half down, balance in 6 or 12 months notes. Is worth more money. See Fred Burnam, Mountain Advocate, Barbourville, Ky.

Misses Emily and Willamar Minton spent the week end with Miss Mamie Hawn and attended the "stir-off."

## GET READY FOR "FLU"

Keep Your Liver Active, Your System Purified and Free From Colds by Taking Calotabs, the Nauseless Calomel Tablets, that are Delightful, Safe and Sure.

Physicians and Druggists are advising their friends to keep their systems purified and their organs in perfect working order as a protection against the return of influenza. They know that a clogged up system and a lazy liver favor colds, influenza and serious complications.

To eat short a cold overnight and to prevent serious complications take one Calotab at bedtime with a swallow of water—that's all. No salts, no unacs, no gripping, no sickening after effects. Next morning your cold has vanished, your liver is active, your system is purified and refreshed and you are feeling fine with a hearty appetite for breakfast. Eat what you please—no danger. Calotabs are sold only in original sealed packages, price thirty-five cents. Every druggist is authorized to refund your money if you are not perfectly delighted with Calotabs. (Adv.)

W. R. Hughes, of the Horse Creek Coal Co., Clay Co., Ky., is now mining and shipping coal and would like to have 30 to 35 good miners. He is paying from \$1.00 to \$1.25 per ton for mining. Coal is 40 inches clear coal, solid shooting. Miners can make from \$10 to \$15 per day 47-31.

### Old False Teeth Wanted

We pay \$1 to \$20 per set for them in any condition. Broken teeth in proportion. We also buy old crutches, broken work, broken jewelry and old silver of all kinds. Mail it to us—your money sent by return mail.

**Brackney Refining Co.**  
P. O. Box 570 Louisville, Ky.

### FARM FOR SALE

100 acres and grist mill on Big Richland Creek, 1 five room dwelling with stone cellar, barn and other out buildings, one mile from Dixie Highway, well watered. Sell cheap for cash.

48-31-pd. T.C. Parrott,  
Jarvis Store Ky.

### Sincere Gratitude

Mrs. William Bell, Logansport, Ind., writes: "I deem it my duty to express my gratitude for the good Chamberlain's Colic and Diarrhoea Remedy did me when I had a severe attack of diarrhoea three years ago. It was the only medicine that relieved me."

Mr. J. C. Moore is visiting his daughter in Tenn.

He was accompanied by Mrs. T. F. Faulkner.

Judge F. D. Sampson, of Frankfort was a business visitor in our city the latter part of last week.

Hon. E. C. Kash, republican nominee for Railroad Commissioner was here on business the latter part of last week.

Congressman J. M. Robison stopped here Tuesday. Mr. Robison made several speeches in Harlan County last week in the interest of Republican State Ticket.

FOR SALE—80 acres limestone rolling grain and tobacco farm located on good road four miles from two good railroad stations. Same man has owned farm for past 36 years and because of infirmities of old age and scarcity of labor is no longer able to take care of it. Has good six room frame house, barn 40x50 with cow shed attached. Good water, all necessary outbuildings, plenty of fruit for family use. Rural mail route and school wagon pass door. On the back part of farm is thirty acres of tobacco land which has never been plowed and which was in cut over timber and bushes until fire ran through it two weeks ago leaving it bare. There is about 20 acres of bottom land on place. A bargain at \$2,500. HERSHBERGER & DIXON, Paris Crossing, Ind.—4911.

**Hendon & Payne Say**  
After you eat—always take

## EATONIC

FOR YOUR ACID-STOMACH

Instantly relieves Heartburn, Bloating, Gassy Feeling. Stops food souring, repeating, and all stomach miseries. Aids digestion and appetite. Leaves mouth sweet and strong. Increases Vitality and Energy.

EATONIC is the best remedy. Tons of thousands are satisfied. Only cents a cent or two a day to use. Positively guaranteed to please or we will refund money. Get a big box today. Try Cardui, today. E-76

**It Helps!**  
There can be no doubt as to the merit of Cardui, the woman's tonic, in the treatment of many troubles peculiar to women. The thousands of women who have been helped by Cardui in the past 40 years, is conclusive proof that it is a good medicine for women who suffer. It should help you, too.

**Take**

**CARDUI**

The Woman's Topic

Mrs. N. E. Varner, of

Hixson, Tenn., writes:

"I was passing through the . . . My back and sides were terrible and my suffering indescribable. I can't tell just how and where I hurt, about all over, I think. I began Cardui, and my pains grew less and less,

until I was cured. I am remarkably strong for a woman 64 years of age; I do all my housework."

Try Cardui, today. E-76

Herndon & Payne, Barbourville, Ky.

# Remember

The October Dates of Auction Sales for  
Swinebroad, the Real Estate Man,  
Of Lancasters, Kentucky.

October 8th. 400 acres, the J. F. Crook farm, Lincoln County.

October 10th. The Jas. N. Denny farm, 247 acres, Garrard County, 3 miles of Lancaster.

October 11th. 100 acres for I. R. McCroskey, right in Burgin, Mercer County.

October 15th. 900 acres at Monticello, Wayne County the J. E. Kendrick farm.

October 18th. 2 brand new dwellings, with 10 to 20 acres to each, right on the pike, 1 mile of Lancaster, Garrard County.

October 21st. 335 acres, the best land in Mercer County, 1½ miles of Shakertown, for R. W. Givens.

October 22nd. 140 acres, for N. J. Gosney, right in Camp Robinson, on Lexington Pike, 6 miles of Lancaster.

October 24th. 190 acres, for J. L. Butler, Lincoln Co., near Stanford and Danville pike, 4 miles from Danville

These farms will be subdivided and sold in tracts to suit the purchasers, and remember Swinebroad "ALWAYS SELLS" and always offers something which appeals to the purchaser. Don't forget the dates. Look up the advertisements giving descriptions of these farms.

### Entertains Study Club.

Mrs. J. F. Hawn entertained the Study Club on Tuesday.

There were fourteen present.

The house was decorated in nasturtiums and dalias, the color scheme of yellow and white being carried out.

After the regular program ices and cake was served.

Miss Gladys Johnson and Miss Dowis Sampson assisted Mrs. Hawn.

## For Constipation and Indigestion

Avoid drastic cathartics. What your system needs is a mild but thorough cleaning out—something to remove and correct conditions which cause the trouble. You'll find it in

## DEVONIA

"The Waterway to Health"

An American Medicinal Mineral Water, bottled at the spring, without any condensing or fortifying.

64 Doses \$1.00

Dose: Tablespoonful in a glass of water.

Devonia is also prescribed by physicians for rheumatic affections, hardening of arteries, high blood pressure and skin affections.

On prescription or from druggist. Free booklet on request.

The Devonian Mineral Spring Co. (Incorporated) Owensboro, Ky.

"These Rats Wouldn't Eat My Best Grain," Says Fred Lamb.

It's hard to keep rats out of a feed store. Tried for years. A neighboring store sold me some RAT-SNAP. It worked wonders. Gathered up dead rats every morning.

Bought more RAT-SNAP. Haven't a rat now. They wouldn't eat my best grain when I threw RAT-SNAP around."

Three sizes. 25c, 50c, \$1.00. Sold and guaranteed by Wilson Bros. and Costellow Drug Co.

Will You Spend 50¢ On RAT-SNAP to Save \$100?

One 50¢ pkg. can kill 50 rats.

The average rat will rob you of \$10 a year in feed, chicks and property destruction.

RAT-SNAP is deadly to rats.

Cremates after killing.

Leave no smell. Comes in cakes.

Rats will pass up meat, grain, cheese

to feast on RAT-SNAP.

Three sizes 25c, 50c, \$1.00. Sold and guaranteed by Wilson Bros. and Costellow Drug Co.

### Eve-Wagner

Miss Julia Eve and Mr. Peter Wagner were married Wednesday morning at nine o'clock at the home of the bride's sister Mrs. Minnie Riddell, Rev. W. B. Minton officiating. They left at once for Knoxville, Tenn., well placarded by the friends who attended their wedding.

At the Christian Church

Saturday October 12th.

Bible School at 9:45 a. m.

The Bible Class expects the visitors from Jonsee.

The usual services at 10:50 a. m. The John A. Gray, D. D., the "Hobo" Preacher will preach.

At the evening hour, 7:30, the pastor will preach, his subject being: "The Soul's Satisfied Quest."

All are cordially invited to attend these services.

Thos. J. Belcher, Minister.

## Needed Protection

Keep your body well nourished and strong and there is little danger. It's essential that you keep up your resistance. There are thousands of families who would not dream of being without the protection that

affords. The right idea is to start in the fall with Scott's Emulsion and be protected for a strenuous winter.

It's Scott's Emulsion you ask for.

The Norwegian cod-liver oil used in Scott's Emulsion is super-refined in our own American Laboratories.

Its purity and quality is unsurpassed.

Scott & Bowne, Bloomfield, N. J.

# FOR BETTER ROADS

## GREAT ROAD BUILDING YEAR

Thousands of Miles of Improvement Arranged and More Will Surely Follow.

From the passage of the federal aid road act to December 15, 1918, 755 projects were approved by the secretary of agriculture. These projects involve the improvement of 7,867 miles of public roads at a total estimated cost of \$57,632,000, of which the federal government has been requested to contribute \$21,602,000. There have been actually completed to date twelve projects, involving a total of fifty-one miles of road, costing approximately \$817,548, and on which federal aid in the amount of \$20,600.19 was paid.

Altogether there are more than 7,500 miles of road, for which most of the steps preliminary to construction have been taken so far as the bureau of public roads is concerned. Numerous other projects not yet reported to the department have been completed or are under construction, so that the sum total of the road work now in progress under federal aid is greater than appears in this summary.

From Florida to Maine, through the North to the Pacific coast and down to Mexico road building work is going on. Every state has accepted its contribution from the government, and while no organized effort has been made along those lines to the present time, the states are working gradually to the system of national highways.

Coupled with plans already outlined for expenditures on the roads is the legislative program now before congress, which provides for \$500,000,000 to be expended over a period of seven years by federal aid. It is estimated that in the event of the passage of this bill, which would

Well-Drained Road.

make available immediately \$75,000,000 for use in federal aid, it would be possible for the government and the states to build 34,000 miles of highways this year if labor could be obtained.

## VALUE OF POULTRY MANURE

Increased Supply of Fresh Vegetables May Be Obtained By Applying to Garden Soil.

The droppings from fowls, if carefully saved and applied to the garden soil, will increase the supply of fresh vegetables. Poultry manure is rich in nitrogen and is well worth the effort it requires to save and apply. The droppings from an average farm flock will amount to considerable fertility during the year.

## AUTO TAXES TO GO TO ROADS

Committee Appointed in Alabama to Request License Fees Be Applied to Highways.

The Birmingham (Ala.) Automobile club has appointed a legislative committee which is to appear before the state legislature with the request that all automobile license fees and taxes be applied on the cost of improved roads in the state. The funds thus diverted would amount to \$1,500,000 annually.

**Slow in Road Building.**  
With all her development, America has always been slow in the matter of road building.

**Phosphorus Needed.**  
It is now generally agreed by experiment station professors and practical farmers in our eastern states that the greatest fertilizer needed by our soils is phosphorus, and that the best method of supplying it is in the form of acid phosphate.

**Great Need of Farmer.**  
If there is any one thing that the farmer needs more than another, it is good highways. Every other business is on the line of progress, so why not the road business?

## RAISE CHICKENS BY USE OF HENS

At Hatching Time Fowls Should Be Confined in Slightly Darkened Nests.

## KEEP YOUNG CHICKENS WARM

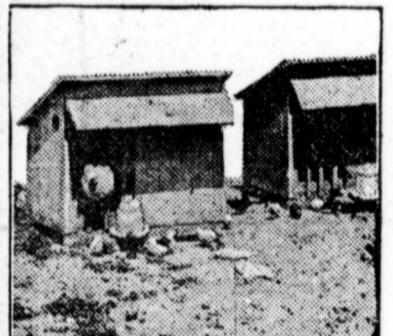

Use Insect Powder to Keep Away Vermin—Brood Coops Should Be Moved Weekly to Fresh Ground—Shade is Essential.

Sitting hens should be confined to slightly darkened nests at hatching time and not disturbed unless they step on or pick their chickens when hatching, in which case the chickens should be removed as soon as dry, in basket lined with flannel or some other warm material, and kept near a fire until all the eggs are hatched; or the eggs may be removed and placed under a quiet hen whose eggs are hatching at the same time.

An incubator may also be used to keep the earliest hatched chickens warm, in case they are removed from the nest. If the eggs hatch unevenly, those which are slow in hatching may be placed under other hens, as hens often get restless after a part of the chickens are out, allowing the remaining eggs to become cooled at the very time when steady heat is necessary. Remove the egg-shells and any eggs which have not hatched as soon as the hatching is over. Hens should be fed as soon as possible after the eggs are hatched, as feeding tends to keep them quiet; otherwise many hens will leave the nest. In most cases it is best that the hen remain on the nest and brood the chickens for at least 20 hours after the hatching is over.

### Use Insect Powder.

Powder the hen with a good insect powder before moving her and the chickens to the brood coop. The hen should be dusted every two weeks, or as often as necessary, until the chickens are weaned. If lice become thick on the chickens, or if they are troubled with "head lice," a very little grease, such as lard or vaseline, may be applied with the fingers on the head, neck, under the wings, and around the

Brood Coop Used on Government Farm at Beltsville.

Great care should be taken, however, not to get too much grease on the chickens, as it will stop their growth and in some cases may prove fatal.

### Keep Brood Coop Clean.

The brood coop should be cleaned at least once a week and kept free from mites. If mites are found in the coop, it should be thoroughly cleaned and sprayed with kerosene oil or crude petroleum. From one to two inches of sand or dry dirt or a thin layer of straw or fine hay should be spread on the floor of the coop. Brood coops should be moved weekly to fresh ground, preferably where there is new grass. Shade is very essential in rearing chickens, especially during warm weather; therefore the coops should be placed in the shade whenever possible.

A cornfield makes fine range for young chicks, as owing to cultivation of the ground they get many bugs and worms and have fresh soil to run on.

### Brooding Is Difficult.

The proper brooding of chickens is one of the most difficult operations on many poultry farms, especially for the beginner. Many poultry keepers who are able to obtain good egg yields and good hatches make a failure of brooding chickens, either in raising only a small percentage of the chickens hatched or in failing to rear strong, vigorous birds which develop into good breeding stock. Brooding is still in the experimental stage, and no one system has given perfect satisfaction.

## BEGIN WITH LITTLE CAPITAL

For Raising Live Stock Plenty of Pasture and Feed Are Essential for Profits.

Live stock raising may require more capital, especially when one must begin without any facilities. But it is possible to make a beginning with little capital. Plenty of feed and pasture are essential for profitable live stock raising.

## ADVANTAGES OF SHEEP FLOCK

Good Crop of Wool Is Insured for Market and Fertility of Soil Is Built Up.

The man who invests in a flock of sheep not only insures a good crop of wool for the market; he builds up the fertility of his soil, so that it will grow any kind of a crop he may wish to sow.

## LESS STRESS ON BAD POINTS OF TRACTORS

Principal Advantage of Machine Told by Dakota Owners.

Among Other Things Mentioned It Saves in Time and Makes It Possible to Cover Desired Acreage in Proper Season.

(Prepared by the United States Department of Agriculture.)

Several hundred tractor owners in the Dakotas were asked these questions:

"What do you find to be the principal advantages of the tractor for farm work?"

"What are its principal disadvantages?"

The replies received have been summarized in Farmers' Bulletin 1035, just published by the department of agriculture.

Saving in time, making it possible to cover the desired acreage within

Farm Tractor Making Plowing a Pastime.

the proper season, is put first among the advantages by a large percentage of the farmers. Other advantages mentioned are:

Ability to do thorough work, especially in hot weather, when horses are at a disadvantage.

Saving in man labor, doing away with more or less hired labor and enabling one man to farm a larger acreage than he can with horses.

Economy.

This last advantage is mentioned by a larger percentage of Dakota farmers than of farmers in other states where similar investigations of the tractor have been made. This is doubtless because the cropping system followed in the Dakotas is such that the tractor can be used to advantage for more of the farm work than in most other parts of the country.

The principal disadvantage of the tractor, according to the reports made by these farmers, is its injurious effect on moist soil. This difficulty is a serious one in districts where the soil is heavy and where it is necessary to do a considerable amount of work in early spring.

Difficulty of operation seems to rank next as a disadvantage. A large percentage of farmers emphasize it. Other disadvantages mentioned are expense of operation, undue increase in investment, and delays on account of engine trouble.

In comparing the reports upon which this bulletin is based with those obtained from tractor owners in various parts of the corn belt several years ago it appears that less stress is laid upon the disadvantages of the tractor in the recent reports than in the older ones.

## FOR MORE POULTRY

Keep better poultry: Standard-bred poultry increases production and improves the quality.

Select vigorous breeders: Healthy, vigorous breeders produce strong chicks.

Hatch the chicks early: Early hatched pullets produce fall and winter eggs.

Preserve eggs for home use: Preserve when cheap for use when high in price.

## AVOID HAVING PIGS CRUSHED

Night-Inch Plank Should Be Nailed Around Pen About Eight Inches From Floor.

To prevent having pigs crushed in the farrowing pen, do not permit the sow to make a nest of her bed, but keep it comparatively level. Around the sides of the pen, nail an eight-inch plank, horizontally, and about eight inches from the floor. By use of this contrivance many pigs will be saved from being mashed against the wall.

## FEEDING MATERIAL FOR HOGS

Mixture of Corn and Middlings Fed in Self-Feeder Will Be Entirely Satisfactory.

The larger hogs will do well on a mixture consisting of corn three parts to middlings one part by weight. Feeding this material dry in a self-feeder will be entirely satisfactory if the hogs have plenty of water, set too high for drinking purposes.

THE WESTERN STATES HAVE ADOPTED THE 56" AUTO TRACK WAGON

## Neither too Wide nor too Narrow but Standard 56-Inch Auto-track

# WEBER

## Bought by Farmers Because of Its Known Qualities

**REGARDLESS** of all other considerations—the 60-inch wagon does not fit the road. Any advantages it might possess are offset by the fact that it is a stranger on its own roads. It rides the ridges, which causes broken axles, wheels and other parts, and the tongue whips about which is hard on the team.

The justly famous Weber wagon is built only in 56" auto-track because this is the standard approved tread of automobiles—and the automobile makes the ruts in mud or soft roads. If the farm wagon is not made to follow the same path, it is out of date for road service. Automobiles are increasing among farmers because they are a time-saving necessity, and every farmer who hasn't an automobile intends to procure one at the earliest opportunity.

The Weber 56" auto-track wagon will do everything that the old 60" wagon would do. It will haul cotton bales as easily as the wide track wagon and the team can draw the load without having to pull every inch of the way. It lends itself just as readily to all kinds of farm work and in addition it fits the prevailing road tracks.

Besides the auto-track feature the new Weber has the patented Fifth Wheel and the "Safety First" Swivel Reach Coupling—two advantages that are worth \$20 apiece to the user during the life of the wagon.

By all means see our Weber wagons before you buy. We can offer you something that will save you money and give you service.

T. G. Moren

Old Reese Stand

Barbourville, Ky

THE SOUTHERN STATES HAVE ADOPTED THE 56" AUTO TRACK WAGON

## COMMISSIONER'S SALE

By order of the Knox Circuit Court rendered at its August term 1919 in the case of

Fannie M. Sampson, Guardian, and etc. Plff.

Mary Dowis Sampson and Anna Maude Sampson, Deft.

I will, as Master Commissioner on the 27th day of October 1919, same being the first day of the October Term of the Knox County Court, sell at the Court House door in Barbourville, Kentucky, to the highest and best bidder, the following described property, real estate, to satisfy the judgement in said case, amounting to maintenance and education of children and \$40.00 probable cost.

Description: Lying and being on Richland Creek, in Knox County Kentucky. Beginning at the Southwest corner of the farm formerly known as the Mahaley P. Dowis farm, and which she sold to Joseph Sampson, which corner is at a large forked elm on the East bank of said creek, same being a corner to Arch Fuller's boundary of land; thence with a line of same N. 46 E. 66.4 poles to a stone in street at the southwest side of a swamp; thence S. 68 W. 17.5 poles to a spotted oak; thence N. 47 1-4 W. (crossing said swamp) 24.7 poles to a stone at Southwest side of another apple orchard; thence N. 46 W. 43 poles to a stone and sycamore on the Northeast bank

of said creek, same course continued, in all, 44 1-4 poles to center of said street; thence down same with the meanders thereof S. 50 1-2 E 12.5 poles. S. 44 E. 6 poles. S. 44 1-2 E 27.1 poles to a point in the creek opposite said beginning corner; thence N. 46 E. 1.5 poles to the beginning containing 15 acres, be the same more or less.

Said property will be sold on a credit of six months, purchaser to execute bond with approved security, bearing interest at six per cent, from date, having the force and effect of a judgement and retaining a lien on said property until the purchase money is paid.

WITNESS my hand, this the 8th day of October, 1919.

J. R. Jones, Master Commissioner, Knox Circuit Court.

Sale about 1 p. m. Purchaser must execute bond as soon as sale is over, or the property will be immediately put up and resold.

## City Water Test

After a number of tests by the State Experiment Station of the city water, results of examination indicate that this water may be safely used.

G. H. Albright, County Health Officer.

Mrs Mae Wallace of Union College is visiting her sister this week in West Virginia.

## IS ESPECIALLY EFFICIENT THIS WAY HE THINKS

### Butts Lauds Trutona As Combatant of Tired, Druggy, Rundown Feeling

Louisville, Ky., Oct. 9. "Trutona has put my stomach in shape to digest the food I eat and I think it is truly a wonderful medicine—the kind a man needs when he has that common tired, druggy run down feeling, C. A. Butts, 1413 East Washington street, Louisville, said recently.

"My system generally was in a weakened and run down condition", he continued. "For the past thirty-five years I have worked in the foundry of the American Elevator and Machine Co., and I'd get so hot at my work that my system just naturally became run down.

"Realizing that I needed a good tonic that would build me up again and give me strength, I began using Trutona. I'm able to eat anything I want, since taking Trutona and I really enjoy any of my meals and consequently didn't get much good out of them. My bowels are acting regularly now, too. I can recommend Trutona more highly than any other medicine I've ever taken and I'm glad to do so."

Thousands of weakened and run-down men and women have found unheeded relief through Trutona. Going straight to the seat of trouble, Trutona quickly rebuilds worn-out tissues, creates a normal action of the stomach, liver, and bowels and gives to the patient the long-sought-for strength of days gone by. As a body invigorant and system purifier Trutona is peerless.

Trutona is now being introduced and explained in Costellow Drug Store.

## NOTICE

Notice is hereby given that an election will be held on the 4th day of November, 1919, in precinct No. 23, to determine whether it shall be unlawful for cattle generally and all species thereof to run at large in said precinct.

Given under my hand this 1st day of October, 1919.

D. W. Slusher, Clerk.

## NOTICE

Notice is hereby given that an election will be held on the 4th day of November, 1919, in precinct No. 25, to determine whether it shall be unlawful for cattle, general stock law, hogs, cattle, sheep, horse stock and fowls and everything in the way of stock, to run at large in said precinct.

Given under my hand this 1st day of October, 1919.

D. W. Slusher, Clerk.

## Tuesday Club

The new year of Tuesday Club was ushered in with great interest and enthusiasm by the eighteen members present at the home of Mrs. Edward Faulkner on Main street, Tuesday afternoon October 7th. Activities in the Club have started and all indications point to one of the best year's work ever planned by the organization. Mrs. Sawyer A. Smith, the president presided over the business session after which the meeting was taken in charge by the leader, Mrs. Wm. Barr Minton. A splendid address—"Japanese Viewpoint toward the U. S."—was given by Mrs. Guy Dickinson. Mrs. A. W. Hopper told about Ceneva, Switzerland and exhibited the national flag of Switzerland, hand-painted on woolen cloth and the national flower, ebeweiss which was gathered in Switzerland and mounted on velvet more than fifty years ago. "Mohammedanism Wounded by the War" was discussed by Mrs. W. B. Minton.

Two new members, Miss Bertha King and Mrs. Ben Herndon were present. Mrs. Andrew Decker, Jr., was guest for social part of meeting. After literary program, a "Birthday" contest was participated in. Mrs. Creal won the useful prize.

As this was the Fifth Anniversary of the club, the club colors—pink and green, were profusely used. The reception hall, the living room and the dining room were decorated with pink begonias and dahlias. The dining room table had for its centerpiece a large cut glass and silver basket of pink begonias, snr-

rounded by candlesticks holding pink candles. The place cards were pink and green "fives" on the back of which was a question concerning the Club to be answered by the guest receiving it. A delicious salad course was served.

During the course of meeting each member wrote a note, making one large letter to be sent to Mrs. Burman, an absent member, who is now in Louisville.

The year books, one of the prettiest ever put out by the club, were distributed by the Chairman of Program Committee Mrs. James Miller, before adjournment.

### LIFE.

Life. Life, 'tis a wonderful thing. The flowers and plants have life, and even nature itself breathes life. This life is given to all of us to live it as we like.

Life is a beautiful thing, yet we often hear people complain of their lot in life, always grouchy and cross, making those around them the same.

We should look on the bright side of life and hide our little troubles and cares away from the world for the other fellow has troubles of his own.

As we travel through life's highway, and we trod that path but once, give to those that need it lots of love and lots of cheer. Make their darkest day seem brightest by a smile and not a tear. In our lives let each one practice how to make the sunshine brightest into someone's lonely life.

Shall we die and leave no traces of our living here below; only of dark shadows we have cast in others' lives.

"Lives of great men oft remind us. We can make our lives sublime, And departing leave behind us Footprints on the sands of time."

"Footprints that another traveler, Wandering o'er this vale of tears, Will follow and be led upward to the great white throne of God."

Vote "YES" on the Amendment Nov. 4th.

### REWARD

The undersigned will pay a reward of Ten (\$10) dollars for any information leading to the arrest and conviction of any and all persons guilty of entering into the enclosure surrounding the reservoir, or throwing anything whatever in the reservoir, or trespassing in any manner upon the property of the undersigned whereon the reservoir is located.

This September 27, 1919.  
Barbourville Supply Company.

**FOR SALE**—All kinds of plants for winter flowers. Mrs. R. W. Cole.

### FOR STEADY!

When the head feels thick or aches, when one feels all out-of-sorts—perhaps a coated tongue—it is the signal that poisons are accumulating in the system, and should be cleaned out at once.

Auto-intoxication can be best ascribed to our own neglect or carelessness. When the organs fail in the discharge of their duties, the putrefactive germs set in and generate toxins—actual poisons, which fill one's own body.

Sleepiness after meals, flushing of the face, extreme lassitude, biliousness, dizziness, sick headache, acidity of the stomach, heartburn, offensive breath, anemia, loss of weight and muscular power, decrease of vitality or lowering of resistance to infectious diseases, disturbance of the eye, dyspepsia, indigestion, gastritis, many forms of catarrh, asthma, ear affections and allied ailments result from auto-intoxication or self-poisoning.

Take castor oil, or procure at the drug store, a pleasant vegetable laxative, called Dr. Pierce's Pleasant Pellets, composed of May-apple, aloe and jalap.

18 cents a package

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes, or ten packages (200 cigarettes) in a glassine-paper-covered carton. We strongly recommend this carton for the home or office supply, or when you travel.

R. J. REYNOLDS TOBACCO COMPANY  
Winston-Salem, N. C.

CAMEL'S expert blend of choice Turkish and choice Domestic tobaccos answers every cigarette desire you ever had! Camels give such universal delight, such unusual enjoyment and satisfaction you'll call them a cigarette revelation!

If you'd like a cigarette that does not leave any unpleasant cigarette aftertaste or unpleasant cigarette odor, smoke Camels! If you hunger for a rich, mellow-mild cigarette that has all that desirable cigarette "body"—well, you get some Camels as quickly as you can!

Camels' expert blend makes all this delightful quality possible. Your personal test will prove that Camel Cigarettes are the only cigarettes you ever smoked that just seem made to meet your taste! You will prefer them to either kind of tobacco smoked straight!

Compare Camels for quality and satisfaction with any cigarette in the world at any price!
